Compliance Without Complications Self Scheduling

Anyone can scan a QR and schedule available tasks for themselves. Incheq records who did it, the result and at what time and place it was done.

Self Sign-up

InCheq

Employees can scan a QR and sign-up to get started with completing tasks instantly. Brand new employees? No problem! External Vendors? No issues, just have them scan the QR and they can get started.

Template Driven

Incheq turns spreadsheets and paper checklists into templates for you. Templates can be duplicated and modified a million times without loosing the original. How cool is that!

Unlimited Users

Nothing can be more frustrating than user management. Incheq bypasses that by allowing unlimited users. Incheq charges simply per location and volume of items.

Report and/or Export

Incheq allows managers to see live progress of each area and each person's completed tasks. Its modern web architecture also allows for exchange of data with other platforms.

Costs

Incheq's per location charges can be as little as \$49 per month.
